An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Kemeny on 11 February 2009.

The application has been amended as follows: in claim 1, lines 6-7, "to extend the side faces of said drive part" has been changed to -- and having side faces forming a continuous extension of the side faces of the drive part, said leg parts and said drive part forming a single unitary piece --, and in line 9, "of said drive part" has been cancelled;

Claim 10 has been cancelled.

The above amendment clarifies that the leg parts flow smoothly from the drive part as opposed to the prior art, where there is a necessary discontinuity from the drive part to the studs which the examiner has read as the legs in the previous rejection. The above amendment is supported on page 5, lines 22-37 of the original specification. The second part of the amendment to claim 1 is intended to correct an obvious minor error. Claim 10 has been cancelled as duplicative of some of the limitations added to claim 1 in this amendment.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen M. Hepperle whose telephone number is 571-272-4913. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory Huson can be reached on 571-272-4887. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
